The CME AWAY® Commitment

Sea Courses is a medical education company. We offer courses from the medical profession's top educators. These take place around the world allowing physicians to combine learning with personal health breaks and rejuvenation time. Medical professionals choose our CME AWAY® courses because of the combination of high quality and engaging speakers, the latest educational content, terrific venues and family time away from the stresses of everyday life. After 30 years, we are recognized as the leading provider of CME AWAY® experiences.

Our History

Sea Courses came into being in 1995. It was the creation of family physician Dr. Martin Gerretsen and his business partner Harvey Strydhorst. The first CME AWAY® trip operated in 1996 and this has been followed by over 600 trips since then. [Click here to read more about our history!](#)

The CME AWAY® Difference

Our surveys continue to validate that destination CME's offer these key advantages over traditional local classroom CME events:

- All CME AWAY® programmes are certified by the College of Family Physicians of Canada.
- Participants have extended opportunities to interact formally and informally with faculty and peers.
- Sessions occur throughout the entire duration of your trip, allowing time for reflection and further questioning of what has been learned.
- Attendees not only come from several disciplines and health professions, but also from many provinces, states and countries – all of which adds to the group interactive discussions

Even though your primary goal is to be educated, you will accomplish so much more on a CME AWAY® by Sea Courses... The health benefits of time away, the learning experience that is a big part of travelling the world, a vacation experience with colleagues, family and friends. These are the unique advantages of the Sea Courses' CME AWAY® environment.

The CME AWAY® Takeaways

The goal on every CME AWAY® trip is for you to Explore, Learn & Connect.

Explore

- Currently adding new destinations for 2026 & 2027
- Topics beyond traditional CME

Learn

- CME's are filled with PEARLS that are relevant and practical for family physicians and specialists
- CME's are evidence based with interactivity and attendee participation is encouraged

Connect

- Networking with other professionals
- Opportunities to share knowledge with your peers throughout the duration of the trip

All educational programming is provided by Sea Courses Education, an Ontario Not for Profit Corporation.

7-Night Costa Mujeres CME AWAY® Resort

January 23–30, 2027

At Grand Palladium & TRS Coral
Costa Mujeres, Mexico

INTRODUCTION

CME AWAY® by Sea Courses is pleased to invite you to a 7 Night Land CME in Costa Mujeres, Mexico. CAGS Scalpels and Sun: General Surgery Essentials Away is an exciting new CME opportunity for Canadian general surgeons. Through a mix of updates, case-based discussions, tips and tricks and “how I do it” session formats, participants will gain practical knowledge that addresses multiple aspects of surgical practice.

FACULTY

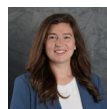

Dr. Eric Hyun | Dr. Hyun is an assistant professor in the Department of Surgery at the University of Manitoba. His main practice focus is General and Colorectal Surgery. His clinical interests include inflammatory bowel disease, rectal cancer, and rectal prolapse.

Dr. Ahmer Karimuddin | Dr. Karimuddin is a colorectal surgeon, researcher, and educator working at St Paul's Hospital in Vancouver, BC, whose work sits at the intersection of clinical excellence, health equity, and the culture of academic medicine. He trained at Western, Saskatchewan, and the University of Toronto, and has spent his career trying to understand not just how surgery works, but how surgical communities work. That question has shaped his research on outcomes, equity, and access; his leadership of training programs that were rebuilt from the ground up; and his conviction that the relationships inside a department are as consequential as the science it produces. He holds the CN Woodward Chair in Surgery at UBC, where he was promoted to Professor in 2025, and serves as Head of the Department of Surgery. He has published more than 100 peer-reviewed papers, led more than \$3.5M in competitive research, and served as President of Doctors of BC. He was recognized with the King Charles III Coronation Medal in 2025.

Dr. Nicole Kolozsvari | General and Bariatric Surgeon, The Ottawa Hospital; Assistant Professor of Surgery, University of Ottawa; Assistant Program Director, University of Ottawa Bariatric Surgery Fellowship Program

Dr. Kara Nadeau | Dr. Nadeau is a General Surgeon at Health Sciences North in Sudbury, Ontario, where she practices general surgery and breast surgical oncology. She has a particular clinical interest in oncoplastic breast surgery and advanced breast conservation techniques. She also serves as Academic Coordinator for the NOSM General Surgery Residency Program. Her academic interests include breast surgical oncology, oncoplastic surgery, and surgical education. Her research has focused on providing high-value, timely feedback for residents within Competency by Design training models and on improving access to breast cancer care in rural and underserved communities.

Dr. Niv Sne | Dr. Sne is an Associate Professor in the Department of Surgery and Trauma with Hamilton Health Sciences and is currently situated at the Hamilton General Site where he runs a growing General Surgery/Trauma practice with a special interest in Abdominal Wall Reconstruction. Dr. Sne has recently formalized an AWR course through McMaster University with the intention to create a Hernia Centre of Excellence. In addition to his clinical interests, Dr. Sne serves as the CTU Director at the Hamilton General Hospital while he continues to participate in both provincial, national and international research studies.

Dr. Stephen Quigley |

TOPICS

Topics will include: Colorectal, endoscopy, foregut, hernias, surgical oncology, HPB, trauma and acute care surgery.

After completing this course, participants will be able to:

- Assess their knowledge of evidence-based and best practices in general surgery
- Integrate best evidence and clinical expertise into decision-making and patient care.

TRAVEL INSURANCE

WHY BUY TRAVEL INSURANCE?

In this everchanging world, most of us still want to get on with our lives and not be overwhelmed by world events. Planning well in advance of travel means that there is time for conditions to change. It is therefore, more important than ever, to have adequate insurance coverage. Most insurance policies require government warnings NOT TO TRAVEL to a specific destination in order to allow cancellation with a full refund. Please carefully review the details of your policy.

For Canadian residents, we highly recommend Manulife Travel Insurance. We have sold their policies for many years with virtually no issues. In particular, we would strongly recommend securing their CANCEL FOR ANY REASON coverage. This must be booked within 48 hours of making your travel reservations. However, the coverage provides you with total peace of mind, regardless of the reasons you choose not to travel. Our travel advisors can explain all the details and provide you with the exact coverage you require.
