

CANCER IN CANADA IN 2020

Projected estimates of cancer in Canada in 2020 is a study published in the Canadian Medical Association Journal (CMAJ). It provides new estimates of the number and rate of new cancer cases and deaths for 23 cancer types by province and sex. Below are some of the key findings from the study.

PANCREATIC CANCER
is expected to be the 3rd leading cause of cancer death in 2020

BETWEEN MALES AND FEMALES
the gap in the number of cancer cases is getting smaller
